Great, thanks! Darcy is reading the FIP as we speak, so I would assume we will see comments from her no later than tomorrow am. Take care, Dee

Okay, I think I've gotten all of Mike's and Kimi's comments in the version on Sharepoint. I tried to respond to a few comments as well. As soon as we get OPRA's comments, I can get them all in the Sharepoint version as well.

Claudia,

Kimi had some comments as well. Mike's and Kimi's comments are both in this document. Sounds like Kimi will be continuing to go through the document and let us know if she has any further comments.

Thanks,

Dee

Hi Dee –

I got a few comments from Kimi, going through p. 20; I think they're excellent points. I'm attaching them in hopes you'll be able to work them in. (You can probably skip for now the Indian law comment on p. 8, which will need input from Kim and/or Tod.) Thanks for considering our comments on this.

Hi Dee and all -

I've finished reviewing the FIP. I do have a number of comments, but I don't think they require significant rewriting, so I'm hoping you'll be able to incorporate them even though I went beyond the "fatal flaw" mandate. In most cases it will be a simple matter of accepting the edit, if you agree with it. To summarize:

Thanks, and if you have any questions about the edits I'll be around this week.

Subject: U&O FIP routing for management concurrence

Importance: High

Hi everyone,

As I have mentioned, we are beginning routing of the U&O FIP package. The package will travel from the Air Program to ORC then to OPRA and then to the RAs office. I have dropped the hard copy package off in ORC and am sending this email to folks as an advance copy in case you are too excited to wait for the hard copy to come your way and want to dive into the electronic version. Once we have Shaun's signature, the FIP will travel to OAQPS, OGC, OAR. OAR will transmit the package to OP and then OP will transmit it to OMB. We would kindly ask

that your edits focus on fatal flaws at this point, since we are still hoping to finalize this rule late summer and in order to accomplish that, we need to move this package swiftly. Let me know if you have any questions.

Thanks in advance,

Dec
